

PARKING AND LIFTS

Lift foyer showing the group of three lifts servicing tower A.

LIFTS

Sky City is serviced by six lifts, comprising two groups of three; one group for each tower. They service all floors within the office precinct and its secure car parks.

The lifts provide an efficient handling capacity with minimum waiting during peak periods.

All lifts have electronic door protection to stop the doors from touching passengers and are smooth and quiet in operation.

A seventh dedicated lift transports parents and children direct from the car parks allocated to the child care centre to the centre itself providing a relatively safe and controlled environment for both parent and child.

PARKING

Sky City boasts approximately 733 car parks, most of which are undercover and secure. This is well in excess of council car parking guidelines.

20 Lexington Drive also has over 60 car parks set aside for visitors and separate parking for couriers. All parking is undercover and the suite allocated parking is security controlled.

Access to lift lobby areas is direct and secure.

Security Controlled Parking

Visitor parking	63
Disabled parking	12
Dedicated parking	658
Total	733
Motorcycle parking	13
Bicycle parking	36
Courier parking	4

There are currently 35 cars parks which are available for purchase or lease.
